Lawrence & Tester Ltd

The personal approach and quality service for commercial and retail cleaning and support services

10th July 1997

Mr P Byrne
Jorade Commercial Services Ltd
54 Aplin Road
Osterley Road
Isleworth
Middlesex TW7 4RJ

Dear Mr Byrne,

Multi Ramp System

We are a contract cleaning company with a Support Services Division which provides specialist cleaning services to our Operations Department, i.e. carpet, kitchen, high level cleaning and machinery servicing. The Department function therefore requires it to transport specialist cleaning equipment some of which is extremely heavy around our contracts in the South East/West region. The fitting of your multi-ramp system to our vehicles enables one person to load and unload the equipment, which is a considerable advantage to us in items of safety, time and labour.

We have experienced efficient and pleasant service from your staff from the time our order is placed through to the fitting of the ramp.

After several weeks experience of using the ramps we can confirm that it meets our requirements and would recommend your organisation and its excellent product.

We look forward to a long and happy association with your company.

Yours sincerely

J S Robinson
Office Manager
