Dear Debbie,

We are a distributor of cleaning equipment who have requirements to transport various types of cleaning machines. This in the past has caused untold problems due to the weight, size and sheer bulk of some of the machines.

We approached your company in 1997 with a problem, and a Multicar Folding ramp was purchased for our Transit van.

The fitting of the multicar system enables one person to load and unload our equipment with the minimum effort and maximum safety.

We have experienced prompt, efficient and polite service from all your staff and are now happy to place a further order for the multicar system.

We would and have recommended your organisation and its excellent product.

Yours sincerely,

**STEVE BAKER
DIRECTOR**
